These cows are results of the breeding programs that Robin and I have watched and learned from in the pages of the *Jersey Journal*. Since we were youth we have both read it and learned from the many Master Breeders and their herds and philosophies. "Joan" combines the Ogston influence with James Huffard's herd. Many of our other herd members have the High Lawn influence from Robin's work with Mrs. Wilde and the deep history of that herd. Another major influence is the entire Chittenden family and their support of us throughout the years. We have also had many special partnerships formed throughout our careers as well, such as the Hi-Kel Syndicate with our friends at Hi-Land Farm. We thank them for the opportunity to work with them. A special thank you to our partners, Mike Barnes and Katharine Knowlton, we have bred some great cows in the BK/DK Partnership and your friendship means a lot to us. Thanks for your support!
